ABOUT ME

I'm a transformative digital product developer driven by a profound passion for crafting exceptional digital experiences. With a keen eye for details and a deep understanding of user behavior, I thrive on creating intuitive, elegant interfaces that resonate with users while ensuring superb functionality.

My journey in the realm of design and development is fueled by a singular goal: to build user-centric products that not only meet but exceed expectations. I firmly believe that the intersection of aesthetics and functionality is where true innovation happens. By empathizing with users' needs and aspirations, I strive to create seamless, engaging interfaces that resonate and deliver value.

My commitment extends beyond aesthetics – I am driven by a strong desire to help businesses flourish. I firmly believe that when user experience takes center stage, businesses grow. Whether it's through intuitive designs or seamless functionalities, I am dedicated to contributing my expertise to drive business success.

WORK EXPERIENCE

Zimo Clan Remote, Nigeria

Web Developer

[25/09/2025 – Current](#)

Zimo Clan is a Web3 agricultural simulation platform. I build and maintain the company website. Optimization and continuous improvement with needed features based on the next phase the platform unveils are things I do day-to-day.

Remote, Nigeria

Freelance Developer and UI Designer

[06/10/2022 – Current](#)

I take development and design gigs from businesses that outsource their services.

TheWide Remote, France

[10/10/2023 – Current](#)

- I contribute to building the layer5.io open source project as a front-end developer.

FBN Insurance Ltd Lagos, Nigeria

Financial Advisor

01/08/2018 – 30/12/2020

- marketing insurance policies
- selling insurance policies
- managing client portfolio

VOLUNTEERING

01/06/2023 – CURRENT Cedar Entrepreneur Development Foundation, Osun State

Community and Risk Manager

The Cedar Entrepreneur Development Foundation has the goal of facilitating the free technical training of people of all age groups. These trainings are conducted in one cohort per year.

Furthermore, the Foundations organizes the annual H-Summit where resource persons from various fields are invited to speak and engage summit participants on topics related to entrepreneurship, business, career, education, finance, and lots more. The focus of each summit depends on a chosen theme.

I have been the Community and Risk Manager since 2023. I work to assist the Director of Programmes who leads administration. I manage the community, first, by continuously engaging stakeholders and trainees throughout their learning. Secondly, I'm saddled with the responsibility of sourcing and monitoring course facilitators to make sure that we deliver the best training every cohort.

On Risk Management, I assess every challenge that may occur and work with other stakeholders to find ways of mitigating them. I address challenges that may arise in the process of transmitting knowledge either from facilitators or participants. Every stakeholder has to be well-provisioned with network service and a safe environment.

During summits, my job includes monitoring the travel progress of speakers and invited participants, while providing safe logistics support to those who require it.

PROJECTS

25/09/2025 – CURRENT

Zimo Clan

I developed the website of Zimo Clan, a Web3 AgriTech company.

Link <https://www.zimoclan.com/>

04/08/2024 – 06/10/2024

Under 40 CEOs

A business website.

Link <https://under40ceos.com/>

13/03/2023 – 20/03/2023

Broad View Capital Website

Freelance website-building project. I was contacted via Fiverr, the freelancing platform, to help convert the existing design into a functioning website.

Link www.broadviewcapital.com/

15/03/2023 – 23/03/2023

The Harbor Church

I was given a Figma design for the website and converted it into a functional one.

Link <https://www.harborchurchla.com/>

05/08/2023 – 30/08/2023

One Red Box Website

The website was originally built with Python commands, and it had a lot of style and functional inconsistencies. I was contracted to help revamp it. I made the website more aesthetically pleasing to start with, and then I proceeded to improve its functionality.
